Science Technology and Health Programs

Motion: That Education Council approves the following program revision: Animation Diploma as recommended by the CPRC – STH:

Animation Diploma

Program revision:

- Addition of courses
- Program description
- Program outline

Rationale:

The Animation program would like to add the option of Co-op Education to the program. This optional co-op work term would occur between the first and second year of the program.

Program description:

The two-year Animation diploma program focuses on drawing, design and the principles and techniques of traditional and digital character animation. There is an optional Co-op work term offered between year 1 and year 2 of the program.

Features include a state of the art classroom in the new Innovation Centre in downtown Kelowna, the latest technology in the field of digital animation, and comprehensive drawing classes taught by industry professionals to develop artistic skills, technical dexter ä Successful professionals equal industry-focused demo reel showcases design and digital animation skills, preparing them for a career in British Columbia's (B.C.'s) entertainment industry.

Program Goals:

- Focus on applied learning: from pencil to digital, graduating animators and not just operators
- Deliver a curriculum which balances artistic skills, industry techniques and applied technology
- Maintain close relationships with the industry.
- Train artists for a successful

Arts and Foundational Programs

Motion: That Education Council approves the following course revisions as recommended by the CPRC – AFP:

- CMNS 200 Communications in the Everyday
- CMNS 230 Communication and Culture
- CMNS 240 The Culture of Television
- CMNS 250 Cultural Industries in Canada
- CMNS 260 Topics in Communication
- CMNS 270 New Media
- CMNS 280 Applied Communication
- CMNS 290 Introduction to Video Games Studies
-

Course revision:

Prerequisites

Rationale:

The rationale is the same for each of the revisions.

The current prerequisites for this course are CMNS 100 or CMNS 110 or 2nd year standing. Instead of listing and expanding the first year courses to reflect the current first year CMNS course offers, we propose replacing this language with "3 credits CMNS or 2nd year standing" in order to streamline the language as well as facilitate more registration paths for students.

Science Technology and Health Programs

Motion: That Education Council approves the following course revisions as recommended by the CPRC – STH:

- SCMT 114 Sustainability and Ethics in Construction
- SCMT 120 Procurement Process
- SCMT 124 Sustainability and the Built Environment

SCMT 114 – 3 – 3 Sustainability and Ethics in Construction

Course revision:

Description

Title – correct spelling error

Rationale:

Correct and/or update the course description to reflect different delivery modes of instruction.

Calendar description:

Current:

Learners are introduced to the ethical foundations of sustainability for construction professionals, the various interpretations and applications of sustainability, and the role of technology in addressing sustainability issues. Learners explore the fundamental principles involved in making and implementing decisions in the midst of complex sustainability issues including intergenerational equity, social justice in the global community, interspecies respect and protection, and ecological economics. This course is offered as blended learning, which includes face-to-face and online delivery. (3,0,0)

Also offered by Distance Education

SCMT 124 – 3 – 3 Sustainability and the Built Environment

Course revision

Course description

Rationale:

Correct and/or update the course description to reflect different delivery modes of instruction.

Calendar description:

Current:

This introductory course provides learners with an overview of the history and global perceptions of the sustainability movement as it relates to the built environment. Through case studies and live projects, learners investigate the effect that sustainable policies and green building certifications have on energy efficiency, water conservation, and indoor environmental quality issues. This course is offered as blended learning, which includes face-to-face and online delivery. (3,0,0)

Continuing Studies Programs

Motion: That Education Council approves the program revision: Education Assistant Certificate as recommended by the CPRC –STH:

Education Assistant Certificate Program revision

- Program description
- Program outline
- Revision of courses

Rationale:

The Education Assistant program is an important program for Continuing Studies and all of the School Districts in the Okanagan Region. The Education Assistant Certificate is a hiring requirement for School Districts and as a result, Okanagan College must be responsive to the needs of the School Districts.

The last time the Education Assistant Certificate went through Education Council was in 2012. The School Districts have requested changes to the topics covered in the program and the skills taught to students. For example, the workshops currently reference personal care in the description and the School Districts would prefer we lessen the amount of time spent on personal care and focus on other areas such as bullying.

Program description:

The 447-hour Education Assistant Program prepares learners to work as Education Assistants in schools as part of an educational team. Education Assistants work under the instructional supervision of classroom teachers and School Districts. The program is designed to provide students with the skills and knowledge necessary to work as Education Assistants in schools.

Learners are introduced to the organizational structure of schools and the role of Education Assistants in the classroom and school. General educational principles with particular attention to individualized instruction, cooperative learning and the importance of creating a positive learning environment will be presented and discussed. Learners will develop and practice the skills necessary to implement modifications or adaptations of curriculum.

CURRENT – NO CHANGES BEING PROPOSED

| Description | This course introduces key educational issues that can impact the role of the Education Assistant with an emphasis on the principles of inclusion. |
| Learning | |

Currently, nurses have two options (A and B) to meet the requirements to write the CNA exam for PeriAnesthesia nursing. This proposed program will provide nurses with the formal education and experience option (B) which will decrease their overall experience time required to become certified by 675 hours.

- 5) To increased access to comprehensive PeriAnesthesia education.

The program is designed with the theoretical components presented on an online learning management system (Moodle), and those components are in a synchronous format with the practicum hours arranged “closer to home” based on practicum requirements. The classes have specific start and end dates and must be completed as per the program outline. This format may decrease travel costs to the student and Health Authorities and increase accessibility to students across BC and Canada.

Calendar description:

The 421-hour online PeriAnesthesia Nursing Certificate provides learners with the knowledge and practical skills for entry into PeriAnesthesia Nursing. This program includes theory, demonstrations, and practical skills education in PeriAnesthesia work areas. Topics include pre-operative, intra-operative and post-operative care considerations for all PeriAnesthesia phases with a focus on Phase 1. The PeriAnesthesia Nursing Certificate program prepares the graduate to write the PANC(C) specialty examination as per the Canadian Nurses Association (CNA).

Admission requirements:

- Active practicing license with respective provincial professional body (RN)
- Proof of a minimum of two years acute care experience
- Provide a written agreement of practicum placement by a perianesthesia unit manager
- Proof of arrhythmia interpretation competency
- CPRC Level C no more than 12 months before admission
- A criminal record check clearance from the B.C. Ministry of Public Safety and Solicitor General's Criminal Records Review Office. Okanagan College's admission offices will provide applicants with instructions and forms for applicants to submit to the Solicitor General's Office and a deadline for the College to receive the clearance letter. Applicants should only initiate their criminal record check when instructed by Admissions. Failure to provide a clearance letter by the deadline will result in a cancellation of the applicant's admission application.

Program Requirements:

Results of tuberculin testing done no more than six months before the date of application, with evidence of appropriate follow up if the test was positive.

Up-to-date Immunization Record based on vaccinations listed below. Please provide a photocopy of your completed immunization record; this record will be kept in your student file. Applicants are advised that, if they choose not to complete this recommended immunization schedule, any outbreak of an infectious disease can have serious implications for their practice experience because of a requirement by the Health Authority that all those not immunized remain outside of the practice area.

- 1. Tetanus and Diphtheria Toxoid (Td)** - Booster doses of Td are recommended every 10 years, or as a minimum at least once during adult life.
- 2. Measles Vaccine**

Students must pass the practicum and attain a minimum grade of

Categorize patients at risk for PONV

Formulate a plan of care to treat and prevent PONV by understanding the pathophysiology of PONV

PAR 109 Post-Operative Complications - 28 hours / 4 weeks

This course introduces the learner to many of the critical post-operative complications that occur in Phase 1 recovery.

Learning Outcomes

By the end of this course, learners will be able to:

Explain, recognize and intervene in a respiratory emergency

Assess for and understand the causes for delayed awakening

Develop a thorough understanding of MH (malignant hyperthermia) and treatment

Interpret and intervene when evidence of alterations in hemodynamic status, including shock states

Employ knowledge of post-operative delirium and agitation to formulate a care plan for the perianesthesia client

PAR 110 Specialty Populations - 21 hours / 3 weeks

This course focuses on populations that require specialized care in Phase 1 perianesthesia, such as geriatrics, obstetrics, pediatrics and bariatrics. There will be an overview of Enhanced Recovery After Surgery Pathway (ERAS).

Learning Outcomes

By the end of this course, learners will be able to:

Formulate Phase 1 care plans with considerations needed in the specialty populations including pediatrics, obstetrics, geriatric and bariatric clients.

Explain the elements of the Enhanced Recovery After Surgery Pathway(ERAS)

PAR 111 Practicum - 225 hours / 6 weeks

The practicum provides the learner with an opportunity to integrate theory into practice at one of several accredited clinical sites. During this hands-on experience, learners will participate in caring for patients receiving various modes of anesthetic and undergoing a variety of surgical procedures.

Learners will gain an understanding of Phase 1 perianesthesia nursing, formulate and implement care based on this acquired knowledge and evaluate client outcomes.

Preceptors in the clinical settings will guide and direct the learner to prepare them for entry into perianesthesia nursing.

Prerequisites: PAR 101, PAR 102, PAR 103, PAR 104, PAR 105, PAR 106, PAR 107

Note: PAR 108, PAR 109 and PAR 110 will be taken concurrently with PAR 111

Learning Outcomes

By the end of this course, learners will be able to:

Practice within relevant legislation, using NAPAN standards for practice and facility specific policy and procedures.

Costs to students:

Under consideration

Implementation date: September 2018

Costs: Development costs – none provided
